

Technical Offer

Egyptian European Power Technology "ATOS" is specialized in the manufacture of power generating units since 1988.

Through years of development, we have formed an integrated chain starting from production, sales, and maintenance to customer service.

To meet the clients' diesel generator requirements, ATOS has set up and implemented a well-regulated management system target towards competitive prices, excellence in quality and reputable service in long-run plan.

The offer include the following:-

- Gen-set ATB2.250
- Warranty.
- After Sales Service.

Gen-set :	Model :	ATB2.250			
	Rated power:	Prime Power (PRP)		Standby rating (ESP)	
		KVA	KW	KVA	KW
		250	200	275	220

Specification

GENERATING SET Frequency	50Hz
VOLTAGE	380 V
PHASES	Three
POWER FACTOR	0.80 PF
Daily fuel tank	sufficient for 1 h operation at prime power
Battery	Lead acid
Gen-set construction	Gen-set Mounted on a base frame with integral anti-vibration mountings and lifting points. The Gen-Set has standard safety labels

ENGINE :	
Manufacturer	Baudouin
Model	6M16G275/5
Origin	France
Eng. Rate prime power	240 KWM
Cycle	Four stroke
Number of cylinders	6 vertical in-line
Speed	1500 RPM
Combustion system	direct injection
Cooling system	Water Cooled
Fuel Consumption	56.9 L/H @ prime power
Electrical System	24 V

The engine performance corresponds to ISO 8528-1, ISO 3046, and DIN6271.

ALTERNATOR :

Manufacturer	Leroy - somer
Model	TAL 046 E
Origin	France
Prime Rated Power	250 KVA – 200 KW
Insulation Class	Class (H)
Temperature	40 °C
Degree of Protection	IP 23
Power Factor	0.8 PF
Voltage Output 50 Hz	400 V
No of Phases	3
No of Bearings	Single bearing
No of Poles	4
Efficiency	92.5 %
Control System	Self-Excited

The TAL range complies with international standards and regulations: IEC 60034 and derivative.

The range is designed, manufactured and marketed in an ISO 9001 and 14001 environment.

The Control Panel:

Construction:

- The control panel will be flexibly set mounted with a front opening door with protection equivalent to IP42.
- The panel is made of steel sheet with electrostatic paint and totally isolation.
- The panel designed to be manually, automatically operated and also can be at off mode for safety and maintenance.

Gen set circuit breaker:

Three poles circuit breaker (400 A) provides thermal and magnetic protection in case of overload or short-circuit conditions

The panel contains DEIF CGC 400 digital control unit

- Auto Start Control Module
- Measure, protect and indicate the following:

Control functions:	
Auto mode	Sleep mode
Off mode	Manual mode
Emergency stop switch	Fault History
Cycle cranking	LED indicating lamp
Time delay Start / stop (cool down)	Digital output voltage regulation
U/O Voltage sensor	U/O Frequency sensor

Engine Monitoring Equipment:	
Oil pressure	Engine temperature
Engine speed	Plant battery volts
Running hours	Intake manifold temperature
Alternator Monitoring Equipment:	
Mains Volts (Ph-Ph/Ph-N)	Generator Ampere (L1, L2, L3)
Generator Volts (L-L / L-N)	Generator kVA, kWh
Generator Frequency (Hz)	Power factor
Generator kW as % of rated kW setting	kVAR

Alarms	
Over and Under Speed	Over Current
Low and High Battery Volt	Under / Over Generator Voltage
Start and Stop Failure	Over Current
Charge fail	Low Oil Pressure
Emergency stop	High engine temperature
kW overload	Unbalanced load

Warranty:

- The Offered engines and attachments are warranted against faulty of manufacturing for a period of **Two year** from delivery date or **500 working hours** whichever is closer
- Atos 's Warranty obligations hereunder shall exclude all consumable items, including but not limited to oil, grease, fuel, belts and filters, which will be provided by the customer or purchased by the customer

After sales service:

- We provide our customers a permanent stock of full units and spare parts to serve all types of equipment.
- Call center provide technical support service **24/7**.
- We continue to offer job qualified and equipped maintenance workshops qualifies them for all acts of reforms in record time and the highest degree of efficiency.
- We concluding maintenance contracts for all generators.
